

SBAL-PLv2

SINGLE BEAM AIMING LASER

PISTOL LIGHT VERSION 2

THE STEINER EOPTICS PISTOL LIGHT LASERS ENABLES OPERATORS TO ENGAGE TARGETS ON A BATTLEFIELD OR DURING CLOSE-QUARTER COMBAT IN LOW-LIGHT AND NO-LIGHT CONDITIONS. THE SBAL-PL V2 IS A PROGRAMMABLE COMPACT PISTOL LIGHT OFFERING A VISIBLE LASER AND 500-LUMEN WHITE LED LIGHT.

..... OVERALL FEATURES

- Program single tap, double tap, and press and hold functions and control the dimming level for each
- Red or Green visible aiming laser and white light
- Fully adjustable windage and elevation
- Integrated adjustable Picatinny mount
- Powered by 1 CR123A battery
- Quick-release battery latches

Available in **Green** (79060)
and **Red** (79070) Lasers

MADE IN USA

Push button switches and dimming levels can be programmed.

Fully adjustable mounting bracket easily attaches to standard pistol rails or M1913 picatinny rails.

Bright white light sits below the visible laser. Recoil resistant design ensure reliable performance.
